

Dimplex® outdoor Living™

PowerChef® Electric Grill

TBQ-120-REG

The new PowerChef cooks as good as it looks. Clean, efficient electrical operation eliminates the worries and hassles of gas grills – no cold spots, empty tanks, broken igniters or flare-ups.

- Easy, automatic controls take the guesswork out of grilling and let you cook like a pro.
- Durable, weatherproof matte black finish with gloss black accents.
- Large removable drip tray for easy cleaning.

Easy, automatic controls

Dual Element Cooking System

- Large enough to cook for six people.
- Cooks as much as a grill twice its size because every square inch performs with the same power and no cold spots.
- EvenSear Dual Element Cooking System:
 - The entire 216 sq. in. grilling surface reaches 650° F searing temperature
 - The lower cooking element simultaneously provides precise, even heat.
- Manual cooking mode allows for complete cooking control.
- Programmed cooking mode tells you when to place your food, when to flip and when to serve.
- 120 Volts / 1,630 Watts / 13.6 Amps
