Always use a qualified technician or service agency to repair this fireplace.

! NOTE: Procedures and techniques that are considered important enough to emphasize.

⚠ CAUTION: Procedures and techniques which, if not carefully followed, will result in damage to the equipment.

⚠ WARNING: Procedures and techniques which, if not carefully followed, will expose the user to the risk of fire, serious injury, or death.

Welcome & Congratulations

Thank you and congratulations for choosing to purchase an electric fireplace from Dimplex, the world leader in electric fireplaces.

Please carefully read and save these instructions.

⚠ CAUTION: Read all instructions and warnings carefully before starting installation. Failure to follow these instructions may result in a possible electric shock, fire hazard and will void the warranty.

! NOTE: This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Operation is subject to the following two conditions: (1) this device may not cause interference and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Quick Reference Guide

① The electrical information regarding your electric fireplace can be found on the rating label located on the front of the unit, behind the glass.

Before installation, please record your fireplace's serial number below for future reference. The serial number can be found on the Serial Number Label of your fireplace (see below).

② If you have any technical questions or concerns regarding the operation of your electric fireplace, or require service contact customer service.

③ For dimensions of your fireplace, refer to Figure 1.

Quick Reference Guide

Figure 1

IMPORTANT INSTRUCTIONS

- ① Read all instructions before using the electric fireplace.
- ② This fireplace is hot when in use. To avoid burns, do not let bare skin touch hot surfaces. The trim around the heater outlet becomes hot during heater operation.
- ③ Extreme caution is necessary when any heater is used by or near children or invalids and whenever the unit is left operating and unattended.
- ④ Young children should be supervised to ensure that they do not play with the appliance.
- ⑤ The appliance is not intended for use by young children or infirmed persons without supervision.
- ⑥ If the supply cord is damaged, it must be replaced by the manufacturer, or its service agent, or a qualified person in order to avoid a hazard.
- ⑦ Do not operate any unit with a damaged cord or plug, or if the heater has malfunctioned, or if the electric fireplace has been dropped or damaged in any manner, contact Dimplex Technical Service at 1-888-346-7539.
- ⑧ Do not use outdoors.
- ⑨ Never locate fireplace where it may fall into a bathtub or other water container.
- ⑩ Keep combustible materials such as furniture, pillows, bedding, papers, clothes and curtains at least three (3) feet (0.9 m) from the front of the unit.
- ⑪ Do not run the cord under carpeting. Do not cover cord with throw rugs, runners, or the like. Arrange cord away from traffic area and where it will not be tripped over.
- ⑫ Do not locate the heater immediately below a fixed socket-outlet.
- ⑬ To disconnect the fireplace, turn the controls off, then remove the plug from the outlet.
- ⑭ Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage to the heater.

IMPORTANT INSTRUCTIONS

- ⑮ Do not block air intake or exhaust in any manner. Do not use on soft surfaces, like a bed, where openings may become blocked.
- ⑯ All electrical heaters have hot and arcing or sparking parts inside. Do not use in areas where gasoline, paint, or flammable liquids are used or stored or where the unit will be exposed to flammable vapors.
- ⑰ Do not modify the electric fireplace. Use it only as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock or injury to persons.
- ⑱ Avoid the use of an extension cord. Extension cords may overheat and cause a risk of fire. If you must use an extension cord, the cord shall be No. 14 AWG minimum size and rated not less than 1875 Watts.
- ⑲ Do not burn wood or other materials in the electric fireplace.
- ⑳ Do not strike the fireplace glass.
- ㉑ Always use a certified electrician should new circuits or outlets be required.
- ㉒ Always use properly grounded, fused and polarized outlets.
- ㉓ Disconnect all power supply before performing any cleaning, maintenance or relocation of the unit.
- ㉔ When transporting or storing the unit and cord, keep in a dry place, free from excessive vibration and store so as to avoid damage.

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN
NO USER-SERVICABLE PARTS INSIDE

SAVE THESE INSTRUCTIONS

Fireplace Installation

Site Selection

Review and consider all of the following conditions for installation:

- Dimensions of the unit: 50^{5/16} inches (128cm) x 19½ inches (49.5cm)
- Unit requires a minimum of two (2) wall studs in order to ensure a secure installation

Three possible installation methods:

- Installation method: Surface mount (pg. 12); In-wall Recessed (pg. 13); or Flush mount (pg. 15)
- Hardwired or plug-in method

! NOTE 1: A 15 Amp, 120 Volt circuit is required. A dedicated circuit is preferred but not essential in all cases. A dedicated circuit will be required if, after installation, the circuit breaker trips or fuse blows on a regular basis when the heater is operating. Additional appliances on the same circuit may exceed the current rating of the circuit breaker.

⚠ WARNING: Ensure the power cord is not installed so that it is pinched or against a sharp edge and ensure that the power cord is stored or secured to avoid tripping or snagging to reduce the risk of fire, electric shock or injury to persons.

Construction and electrical outlet wiring must comply with local building codes and other applicable regulations to reduce the risk of fire, electric shock and injury to persons.

- ① Select a location that is not susceptible to moisture and is away from drapes, furniture and high traffic.
- ② For ease of electrical hook up you may wish to locate the fireplace near an existing outlet (for plug-in convenience) (refer to NOTE 1).
- ③ Remove fireplace, front glass and hardware from box and remove all packaging materials before installation.
- ④ Store the fireplace in a safe, dry and dust free location until you are ready to install the fireplace.

Fireplace Installation

Hardwire Installation

The fireplace is packaged with a two prong plug installed for plug-in convenience. Hard wiring the fireplace is also an option for any installation.

⚠ WARNING: Do not attempt to wire your own new outlets or circuits. To reduce the risk of fire, electric shock or injury to persons, always use a licensed electrician.

⚠ WARNING: Ensure that the Main On/Off Switch is set to the Off position (refer to Operation section) and that the circuit on which the fireplace is to be installed has the power cut off at the service panel until installation is complete.

① Remove the mirror from the fireplace:

- Lay fireplace on its back.
- Remove two (2) Phillips screws from each of the two (2) mirror brackets (Figure 2).
- Remove mirror brackets.
- With one hand keeping pressure on the mirror, tilt the

Figure 2

fireplace upright and slightly forward to allow the mirror to fall out of the inside framing.

⚠ CAUTION: Mirror is not tempered. Do not bump or drop the mirror to avoid breakage and personal injury.

- Remove mirror from fireplace.
- ② Remove six (6) Phillips screws that fasten the media tray and two (2) screws that fasten the front panel tabs (Figure 3). Carefully remove both components.
- ③ Remove one (1) Phillips screw to release the electrical box

Fireplace Installation

Figure 3

Figure 5

Figure 4

Figure 6

cover in the bottom, right corner of the fireplace (Figure 4).

- ④ Carefully remove the electrical box cover from the fireplace as wires are fed through the strain reliefs on the cover and are connected within.
- ⑤ Unscrew the two (2) wire connectors inside the electrical box and separate the wires (Figure 5).

- ⑥ Remove the one (1) Phillips screw that attaches the junction box cover to the fireplace chassis (Figure 5) from inside.
- ⑦ From the back of the fireplace, remove the remaining

Fireplace Installation

three (3) Phillips screws which hold the junction box to the fireplace chassis (Figure 6).

- ⑧ Pull the junction box and power cord out the front of the fireplace.
- ⑨ Replace removed junction box cover with the supplied hard-wire cover replacement (Figure 7) and install using screws removed in steps 6 and 7.

Figure 7

- ⑩ Leaving a minimum of three (3) inches (7.6 cm) of slack, route the power supply through the hole in the alternate junction box cover and secure with a wire clamp (not supplied).
- ⑪ Connect the black wire (live) from the unit to the black wire from the power supply using one of the wire connectors removed in step 5 (Figure 8).

Figure 8

- ⑫ Connect the white wire (neutral) from the unit to the white wire from the power supply using the second wire connector from step 5 (Figure 8).
- ⑬ Reposition the electrical box cover over the wires and connectors and attach to fireplace chassis using the screw removed in step 3.
- ⑭ Carefully reinsert mirror into fireplace and anchor in place using mirror brackets and screws removed in step 1.
- ⑮ Refer to Front Glass Installation section, page 16 for final installation procedures.

Fireplace Installation

Surface Installation

⚠ CAUTION: Two people may be required for various steps of this procedure.

① Choose a location which has a minimum of two (2) wall studs available for mounting.

② Choose your method of supplying power to the unit:

- Plug in to an existing outlet or install an outlet nearby.
- Hard wire the fireplace. Follow the hard wiring instructions on page 9.

⚠ WARNING: Do not attempt to wire your own new outlets or circuits. To reduce the risk of fire, electric shock or injury to persons, always use a licensed electrician.

Ensure that the Main On/Off Switch is set to the Off position (refer to Operation section) and that the circuit on which the fireplace is to be installed has the power cut off at the service panel until installation is complete.

③ Remove the mirror from the

fireplace:

- Lay fireplace on its back.
- Remove two (2) Phillips screws from each of the two (2) mirror brackets (Figure 2, page 9).
- Remove mirror brackets.
- With one hand keeping pressure on the mirror, tilt the fireplace upright and slightly forward to allow the mirror to fall out of the inside framing.

⚠ CAUTION: Mirror is not tempered. Do not bump or drop the mirror to avoid breakage and personal injury.

• Remove mirror from fireplace.

④ Position the fireplace on a wall at the position where it will be mounted (Figure 9). Use a bubble level (one is supplied) to ensure that fireplace is level on the wall.

⑤ Ensuring that at least two (2) key-holes line up with a wall stud (key-holes are spaced at four (4) inch (10.2 cm) centers), mark the location of four (4) screw locations on the wall (through key-holes).

Fireplace Installation

Figure 9

- ⑥ Remove fireplace from wall and store in a safe place away from traffic.
- ⑦ Where marked screw locations do not line up with a wall stud, insert (screw in) one (1) of the two (2) supplied wall anchors (pre-drill if required). Repeat if only two (2) screws line up with a wall stud.
- ⑧ Screw all four (4) supplied #8, 1½ inch (3.8 cm) square head mounting screws and washers into the wall and/or wall anchors leaving ¼ inch (6.5 mm) of thread.
- ⑨ Align chosen key-holes with screws and hang fireplace on the

wall. Screw heads and washers will fit through key-holes and fireplace will slide down into place (screws will slide into narrow part of key-holes).

- ⑩ Tighten all four (4) mounting screws down on fireplace chassis.
- ⑪ Screw the two (2) supplied #8 square head screws through two of the permanent mounting holes which align with a wall stud.
- ⑫ Carefully replace and install mirror and mirror brackets using screws from step 1.
- ⑬ Refer to Front Glass Installation section, page 16 for final installation procedures.

In-wall Recessed Installation - 2x4 Framing

⚠ CAUTION: Two people may be required for various steps of this procedure.

- ① Prepare a wall with a framed opening of 46½ inches (118.1 cm) wide x 16½ inches (42 cm) high (Figure 10).
- ② Choose your method of supplying power to the unit:

Fireplace Installation

Figure 10

- Plug in (you may run the power cord out of the framed wall opening to an existing outlet or install an outlet on a nearby wall stud within the wall).

⚠ WARNING: Do not attempt to wire your own new outlets or circuits. To reduce the risk of fire, electric shock or injury to persons, always use a licensed electrician.

Ensure that the Main On/Off Switch is set to the Off position (refer to Operation section) and that the circuit on which the fireplace is to be installed

has the power cut off at the service panel until installation is complete.

- Hard wire the fireplace (recommended). Follow the hard wiring instructions on page 9.

③ Lift fireplace and insert into opening (Figure 11).

Figure 11

④ Use bubble level (supplied) to level the fireplace within the framing. Adjust as required.

⑤ Drive four (4) supplied mounting screws through the four (4) mounting holes located

Fireplace Installation

Figure 12

in each corner of the fireplace chassis, into wall studs (Figure 12).

⑥ Refer to Front Glass Installation section, page 16 for final installation procedures.

Flush Mounted Installation - 2x8 Framing

⚠ CAUTION: Two people may be required for various steps of this procedure.

① Prepare a wall with a framed opening of 49 inches (124.5 cm) wide x 18½ inches (47 cm) high (Figure 13).

② Choose your method of supplying power to the unit:

- Plug in (you may run the power

Figure 13

cord out of the framed wall opening to an existing outlet or install an outlet on a nearby wall stud within the wall).

⚠ WARNING: Do not attempt to wire your own new outlets or circuits. To reduce the risk of fire, electric shock or injury to persons, always use a licensed electrician.

Ensure that the Main On/Off Switch is set to the Off position (refer to Operation section) and that the circuit on which the fireplace is to be installed has the power cut off at the

Fireplace Installation

service panel until installation is complete.

- Hard wire the fireplace (recommended). Follow the hard wiring instructions on page 9.

③ Lift fireplace and insert into opening. The fireplace's mounting trim should be flush against the wall (Figure 14).

Figure 14

④ Use bubble level (supplied) to level the fireplace within the framing. Adjust as required.

⑤ Drive four (4) supplied mounting screws through the four

(4) mounting holes located on the inside surface of the fireplace chassis, into wall studs (Figure 14).

⑥ Refer to Front Glass Installation section, page 16 for final installation procedures.

Front Glass Installation

① Evenly distribute supplied glass rock on the front tray of the fireplace (Figure 15).

Figure 15

Fireplace Installation

② Carefully mount front glass assembly so that the front glass hooks (4) hang on the front glass mounts on the fireplace (4) (Figure 16).

③ Use the supplied two (2) Phillips sheet metal screws to fasten the glass assembly tabs to the fireplace (Figure 17).

④ Ensure the fireplace's Main On/Off Switch is switched to the Off position (refer to operation section).

⑤ If unit is not hard-wired, plug fireplace into a 15 Amp, 120 Volt outlet (refer to NOTE 1).

Figure 16

Figure 17

Operation

The manual controls for the electric fireplace are located on the right side of the unit and inside the air intake slot (Figure 18).

Figure 18

A. Main On/Off Switch

The Main On/Off Switch supplies power to all fireplace functions. When the switch is in the “**I**” position, the unit is on. When in the “**O**” position, the fireplace is off.

B. Three Position Switch

The Three Position Switch changes the mode the fireplace operates in and has three (3) positions: “**MANUAL**”, “**OFF**”, and “**REMOTE**”.

When in “**REMOTE**” mode, the fireplace's three levels of operation are controlled by the ON and OFF buttons of the remote control transmitter.

In “**OFF**” mode, power to all functions is cut off.

In “**MANUAL**” mode, the fireplace's three levels of operation are controlled by the Manual Control Buttons.

C. Manual Control Buttons

The Manual Control Buttons operate the fireplace levels sequentially (from off): flames only; to flames and low heat; to flames and high heat.

The level is increased every time the “**I**” button is pressed, and the fireplace can be turned off at any point by pressing the “**O**” button.

Resetting the Temperature Cutoff Switch

Should the heater overheat, an automatic cut out will turn the fireplace off and it will not come back on without being reset. It can be reset by switching the Main On/Off Switch to Off and

Operation

waiting five (5) minutes before switching the unit back on.

⚠ CAUTION: If you need to continuously reset the heater, disconnect power and call Dimplex customer service at 1-888-DIMPLEX (1-888-346-7539).

Remote Control

The fireplace is supplied with a radio frequency remote control. This remote control has a range of approximately 50 feet (15.25 m), it does not have to be pointed at the fireplace and can pass through most obstacles (including walls). It is supplied with one of hundreds of independent frequencies to prevent interference with other units.

! NOTE: Before attempting any operation with the remote, pull the plastic insulator strip out from between the remote casing and battery cover (Figure 19).

Figure 19

Remote Control Initialization

If the hand held transmitter or receiver board has been replaced, follow these steps to initialize the transmitter and receiver:

- ① Ensure that power is supplied through the main service panel.
- ② Turn Main On/Off Switch to On (Figure 18A).
- ③ Move the Three Position Switch to the “**REMOTE**” position (Figure 18B).
- ④ Press and hold the Manual Control Button marked “**I**” for five (5) seconds. After five (5) seconds, there is a 10 second window to press any button on the remote control.

Operation

- ⑤ Press any button on the remote control transmitter within that 10 seconds.

This will synchronize the remote control transmitter and receiver.

Remote Control Usage

The remote control operates the fireplace levels sequentially (from off): flames only; to flames and low heat; to flames and high heat.

The level is increased every time the ON button is pressed on the remote control transmitter and the fireplace can be turned off at any point by pressing the OFF button.

Battery Replacement

To replace the battery:

- ① Slide battery cover open on the hand held transmitter (Figure 19).
- ② Install one (1) 12-Volt (A23) battery in the battery holder.
- ③ Close the battery cover.

Maintenance

⚠ WARNING: Disconnect power before attempting any maintenance or cleaning to reduce the risk of fire, electric shock or damage to persons.

manual, an authorized service representative should perform any other servicing.

Mirror Cleaning

The mirror is cleaned in the factory during the assembly operation. During shipment, installation, handling, etc., the mirror may collect dust particles; these can be removed by dusting lightly with a clean dry cloth.

To remove fingerprints or other marks, the mirror can be cleaned with a damp cloth. The mirror should be completely dried with a lint free cloth to prevent water spots. To prevent scratching, do not use abrasive cleaners.

Fireplace Surface Cleaning

Use only a damp cloth to clean painted surfaces of the fireplace. Do not use abrasive cleaners.

Servicing

Except for installation and cleaning described in this

Warranty

Products to which this limited warranty applies

This limited warranty applies to your newly purchased Dimplex electric fireplace. This limited warranty applies only to purchases made in any province of Canada except for Yukon Territory, Nunavut, or Northwest Territories or in any of the 50 States of the USA (and the District of Columbia) except for Hawaii and Alaska. This limited warranty applies to the original purchaser of the product only and is not transferable.

Products excluded from this limited warranty

Light bulbs are not covered by this limited warranty and are the sole responsibility of the owner/purchaser. Products purchased in Yukon Territory, Nunavut, Northwest Territories, Hawaii, or Alaska are not covered by this limited warranty. Products purchased in these States, provinces, or territories are sold AS IS without warranty or condition of any kind (including, without limitation, any implied warranties or conditions of merchantability or fitness for a particular purpose) and the entire risk of as to the quality and performance of the products is with the purchaser, and in the event of a defect the purchaser assumes the entire cost of all necessary servicing or repair.

What this limited warranty covers and for how long

Products, other than fireplace surrounds (mantels) and trims, covered by this limited warranty have been tested and inspected prior to shipment and, subject to the provisions of this warranty, Dimplex warrants such products to be free from defects in material and workmanship for a

period of 2 years from the date of the first purchase of such products.

Dimplex fireplace surrounds (mantels) and trims covered by this limited warranty have been tested and inspected prior to shipment and, subject to the provisions of this warranty, Dimplex warrants such products to be free from defects in material and workmanship for a period of 1 year from the date of first purchase of such products.

The limited 2 year warranty period for products other than fireplace surrounds (mantels) and trims and the limited 1 year warranty period for fireplace surrounds (mantels) and trims also applies to any implied warranties that may exist under applicable law. Some jurisdictions do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to the purchaser.

What this limited warranty does not cover

This limited warranty does not apply to products that have been repaired (except by Dimplex or its authorized service representatives) or otherwise altered. This limited warranty does further not apply to defects resulting from misuse, abuse, accident, neglect, incorrect installation, improper maintenance or handling, or operation with an incorrect power source.

What you must do to get service under this limited warranty

Defects must be brought to the attention of Dimplex Technical Service by contacting Dimplex at 1-888-DIMPLEX (1-888-346-7539), or 1367 Industrial Road, Cambridge Ontario, Canada N1R 7G8. Please have proof of purchase, catalogue/model and serial numbers

Warranty

available when calling. Limited warranty service requires a proof of purchase of the product.

What Dimplex will do in the event of a defect

In the event a product or part covered by this limited warranty is proven to be defective in material or workmanship during (i) the 2 year limited warranty period for products other than fireplace surrounds (mantels) and trims, and (ii) the 1 year limited warranty period for surrounds (mantels) and trims, you have the following rights:

- Dimplex will in its sole discretion either repair or replace such defective product or part without charge. If Dimplex is unable to repair or replace such product or part, or if repair or replacement is not commercially practicable or cannot be timely made, Dimplex may, in lieu of repair or replacement, choose to refund the purchase price for such product or part.
- Limited warranty service will be performed solely by dealers or service agents of Dimplex authorized to provide limited warranty services.
- For products other than surrounds (mantels) and trims, this 2 year limited warranty entitles the purchaser to on-site or in-home warranty services. Accordingly, Dimplex will be responsible for all labour and transportation associated with repairing or replacing the product or part except as follows: (i) charges which may be levied for travel costs incurred to travel to the purchaser's site where the product is located if the purchaser's site is beyond 30 miles (48 km) from the closest

service depot of Dimplex's dealer or service agent; and (ii) the purchaser is solely responsible for providing clear access to all serviceable parts of the product.

- For surrounds (mantels) and trims, this 1 year limited warranty does not entitle the purchaser to on-site or in-house warranty services. The purchaser is responsible for removal and transportation of the surrounds (mantels) and trims (and any repaired or replacement product or part) to and from the authorized dealer's or service agent's place of business. On-site or in-home services for surrounds (mantels) and trims may be performed at the purchaser's specific request and expense at Dimplex's then current rates for such services. Dimplex will not be responsible for, and this limited warranty shall not include, any expense incurred for installation or removal of the surrounds (mantels) or trims or any part thereof (or any replacement product or part) including, without limitation, all shipping costs and transportation costs to and from the authorized dealer's or service agent's place of business and all labour costs. Such costs shall be the purchaser's responsibility.

What Dimplex and its dealers and service agents are also not responsible for:

IN NO EVENT WILL DIMPLEX, OR ITS DIRECTORS, OFFICERS, OR AGENTS, BE LIABLE TO THE PURCHASER OR ANY THIRD PARTY. WHETHER IN CONTRACT, IN TORT, OR ON ANY OTHER BASIS, FOR ANY INDIRECT, SPECIAL, PUNITIVE, EXEMPLARY, CONSEQUENTIAL, OR INCIDENTAL

Warranty

LOSS, COST, OR DAMAGE ARISING OUT OF OR IN CONNECTION WITH THE SALE, MAINTENANCE, USE, OR INABILITY TO USE THE PRODUCT, EVEN IF DIMPLEX OR ITS DIRECTORS, OFFICERS, OR AGENTS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH LOSSES, COSTS OR DAMAGES, OR IF SUCH LOSSES, COSTS, OR DAMAGES ARE FORESEEABLE. IN NO EVENT WILL DIMPLEX, OR ITS OFFICERS, DIRECTORS, OR AGENTS BE LIABLE FOR ANY DIRECT LOSSES, COSTS, OR DAMAGES THAT EXCEED THE PURCHASE PRICE OF THE PRODUCT.

SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO THE PURCHASER.

How State and Provincial law apply

This limited warranty gives you specific legal rights, and you may also have other rights which vary from jurisdiction to jurisdiction. The provisions of the United Nations Convention on Contracts for the Sale of Goods shall not apply to this limited warranty or the sale of products covered by this limited warranty.

Accessories

Contact your local authorized Dimplex dealer for these and other available accessories for your electric fireplace.
